

General Information

INSPIRA is committed to environmental sustainability. We have implemented environmentally friendly strategies in the equipment and materials used in the buildings of our hotels and in our offices. We promote the use of products supplied locally and recycling is a priority. But in the end our aim is to provide our guests an experience that meets their expectations, that's why we have implemented the principles of Feng Shui, a spa and "state-of-the-art" technological solutions in the design of our hotels.

Inspira Santa Marta Hotel is an urban retreat with 89 rooms located on Rua de Santa Marta, adjacent to the Liberdade Avenue in downtown Lisbon, just 7 km from the airport. Entirely renovated, the original facade of the building does provide a foretaste of the harmony within this oasis in the heart of the capital. Park in our garage with capacity for 86 cars, and make your way to the reception. Here you will be greeted by the contemporary design of low environmental impact materials that fill the entire space with positive energy. This is one of the advantages of a decor inspired by the principles of "Feng Shui".
